## FY 2004 REPROGRAMMING INCREASES: +166,500

Operation and Maintenance, Army, 04/04
Budget Activity 1: Operating Forces - +150,000

Explanation: This reprogramming action provides funding from the Iraq Freedom Fund (IFF) to finance the collection, sorting, storing and securing serviceable munitions, and destroying unserviceable munitions captured in Iraq. The U.S. military continues to discover remnants of the former regime's military items, such as military hardware and ammunition that was stored, buried, stockpiled or left in place with approximately 700,000 tons captured so far. This presents security and control problems as the munitions could fall into the possession of terrorists or Iraqis who remain loyal to the former regime. Additional funds are required to continue the U.S. Army Corps of Engineers efforts (for 5 months) and to increase production levels at the six processing sites from an average of 1,245 tons per day to approximately 1,865 tons per day.

Missile Procurement, Air Force, 04/06

Explanation: This reprogramming action provides funding from the IFF for the procurement of 50 additional JASSMs. This purchase will add to the Department's precision standoff weapons capability.
